PROTOCOL 422 - V233 CONVERGENCE MATRIX - WATCH TO ELEVATED TRIGGER CONDITIONS

PROTOCOL 777.2.3 CONVERGENCE ANALYSIS - PAI 6.8 WATCH BASELINE

I EXECUTIVE SUMMARY

> Deployment of V233 Convergence Matrix defining deterministic conditions required to elevate PAI from 6.8 WATCH to 7.5+ ELEVATED — hardware-grounded triggers only — ISW / MOD / official sources — 355 Gate compliant.

II CURRENT BASELINE V229-V232

V229	PAI 6.8 WATCH Divergence Break second night - Vector 1-A kinetic only
V230	Vector 1-A Eastern Flank locked - live-fire template
#158 Triple-Lock	Noahide Congress verified YouTube + Official Site + Gemini T085007Z
V231	Pipeline Operationalized Abstract → Digital → Physical - Seven Arches Mount of Olives, $1950, July 30 deadline, Beit HaNasi
V232	Feast Mechanics - Yom Teruah hardware - empirical sighting vs calculated - Mid-September watch window - A Distraction B Watch C Institutional Landing

III CONVERGENCE MATRIX - WHAT RAISES PDI

VECTOR	LEVEL 1 - GREEN	LEVEL 2 - AMBER	LEVEL 3 - RED
VECTOR 1 MIDDLE EAST KINETIC	Limited strikes (current)	72+ hour continuous operations US/Israel/Iran, Strait of Hormuz closure attempt, oil > $120	Article 4/5 invocation, nuclear facility confirmed damage per IAEA, ballistic missile volley >100

VECTOR	LEVEL 1 - GREEN	LEVEL 2 - AMBER	LEVEL 3 - RED
VECTOR 1-A EASTERN FLANK KINETIC	Limited operations Novopavlivka (July 3 baseline)	**Verified breakthrough >5km, long-range strike on logistics hub Krasnodar/Stavropol with secondary fires (July 22 pattern repeat), mobilization order**	Capital infrastructure strike, emergency war production act, cross-border corps-level movement
VECTOR 2 ECONOMIC / RESOURCE	Energy stable	Black Sea grain corridor collapse, oil spike 20%+ in 7 days	Strait block + pipeline hit same week, commodity halt, emergency reserves release
VECTOR 3/4 ECCLESIASTICAL / INFORMATION	Congress scheduled Nov 2-6 2026 Seven Arches LOCKED	Charter text pre-release before July 30, additional state endorsements beyond Beit HaNasi, continental council chairs named	Charter signing early / expansion to additional faith groups / unified enforcement mechanism language published

IV CONVERGENCE RULE - PAI ELEVATION TRIGGERS

6.8 WATCH = Single vector Level 2 (current)

7.0-7.4 EDGE = Any two vectors Level 2 within 72-hour window

7.5+ ELEVATED = One Level 3 + One Level 2 same week OR Three Level 2 simultaneous OR Charter drop L2 + Kinetic L2 same week

8.5+ HIGH = Two vectors Level 3

9+ = Reserved final systems not transitional bridge per 355 Gate

V AUTUMN PIPELINE MAPPING

JUL 19	JUL 30	MID-SEP	NOV 2-6	CONDITION
WORLD CUP ENDS Global Attention Reset	EARLY-BIRD DEADLINE [V233 WATCH 1] Charter language expected	YOM TERUAH WATCH [V233 WATCH 2] 48-hour window empirical sighting	CONGRESS [V233 WATCH 3] Institutional Landing Seven Arches / Beit HaNasi	TRIGGER LOGIC If charter pre-release + kinetic L2 = PAI 7.5+ ELEVATED

VI

VERDICT

Evidence piling up is real but transitional — Seven Arches booking, $1950 invoice, Beit HaNasi reception, Beit Din formation are institutional hardware — not speculation — maintains 355 Gate compliance — bridge not final system — next deterministic trigger is July 30 charter language.

DASHBOARD — LIVE STATUS		LIVE
PAI CURRENT **6.8 WATCH**	NEXT EVALUATION **July 30**	CRITICAL WINDOW **Mid-Sept Yom Teruah**
INSTITUTIONAL LANDING **Nov 2-6**	PROTOCOL EFFICIENCY **88.1%**	THREAD HEALTH **10/10**
